Abstract

Abstract to be written.

Keywords: t k system, Smoothop.

1 Introduction

This is a skeleton document generated from the `stokex` environment. The preamble, the Smoothop branding, the figure pipeline and the compilation are wired and proven; the content of the `tôk 1` publication remains to be written.

The figure below is a placeholder produced by `figures/gen_figures.py`, present only to prove the generation and inclusion pipeline end to end. Replace it with the real figures.

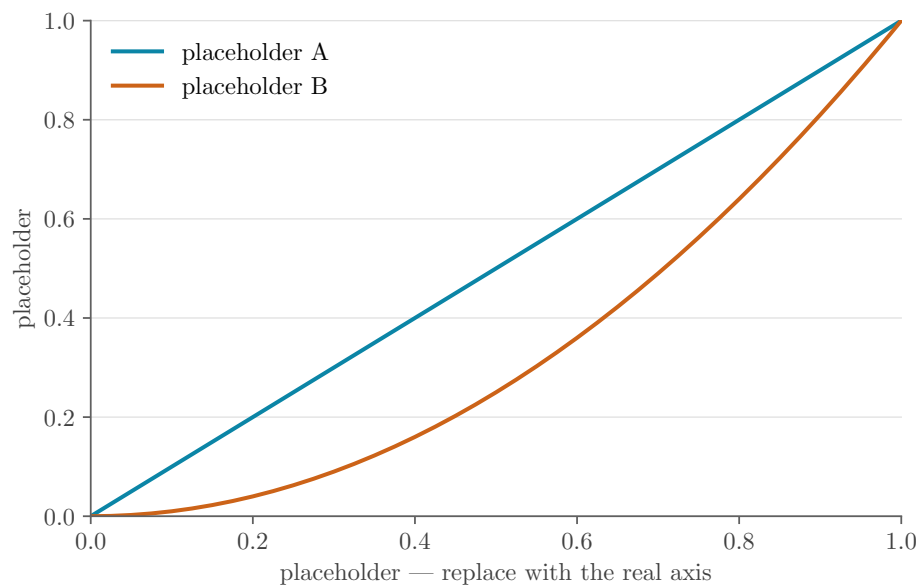

Figure 1: Placeholder figure, in the Smoothop palette. Regenerated by `figures/gen_figures.py`.

2 Conclusion

Conclusion to be written.
